

### **GRACO**

Estudo para Implementação de Reconfiguração Dinâmica em Instrumentação, Automação e Controle

Lucas Sousa de Oliveira

Orientadores:

Jones Yudi (ENM/UNB) Carlos Llanos (ENM/UNB)

### Sumário

- Introdução
- Revisão Bibliográfica
- Experimentos
- 1. Reconfiguração Dinâmica
  - 2. Memórias
- 3. Bootloader
- 4. Autorreconfiguração com MicroBlaze e DDR3
- 5. Autorreconfiguração com MicroBlaze e sem DDR3
- Resultados Gerais
- Conclusão

16 de dezembro de 2013

2

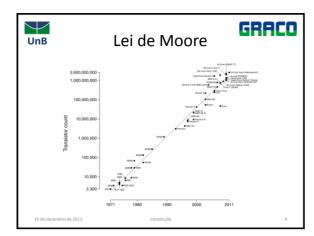

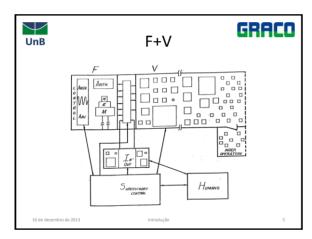

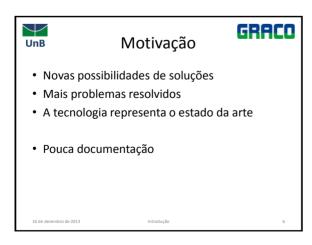

# INTRODUÇÃO

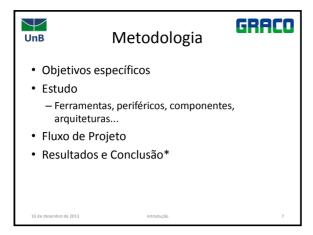

16 de dezembro de 2013

3

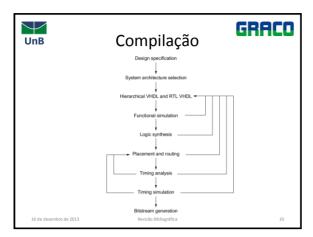

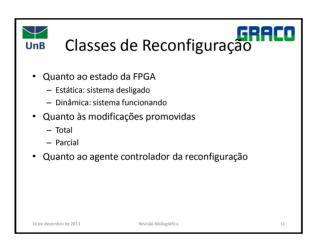

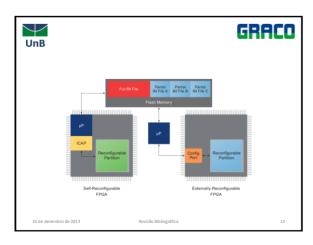

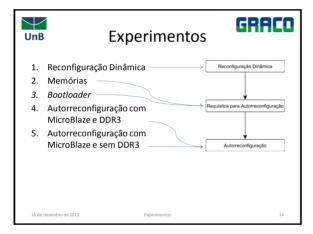

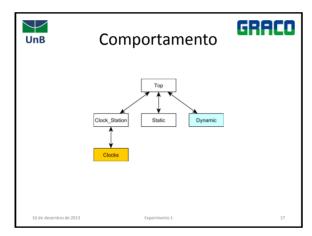

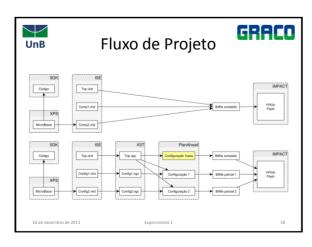

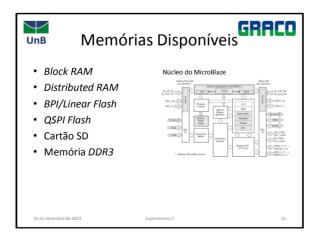

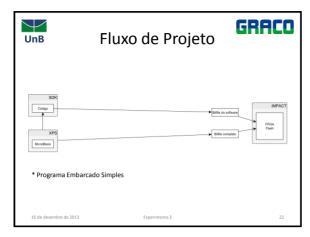

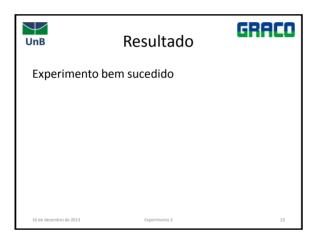

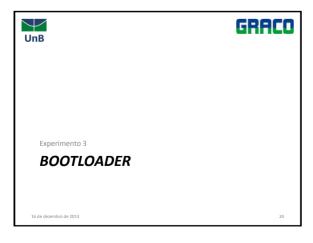

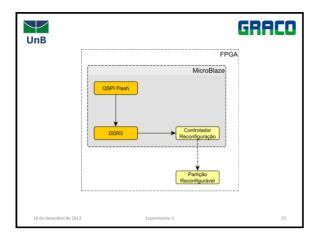

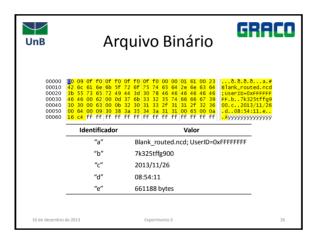

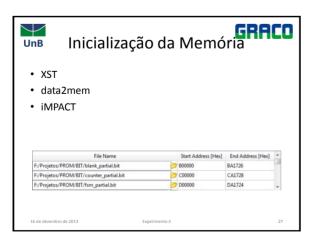

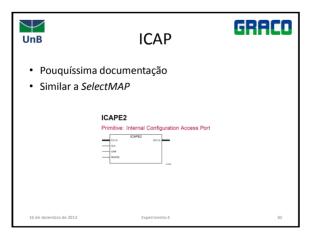

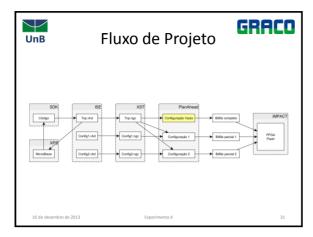

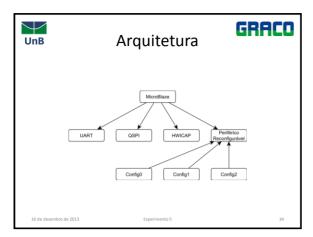

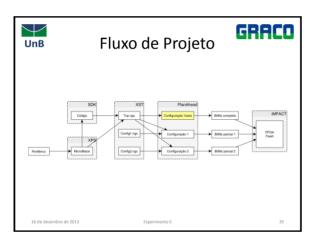

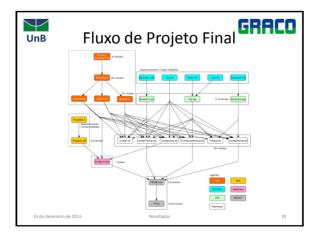

# Problemas • Falta de documentação • Alocação da partição • Configurações/Propriedades da partição • Inversão de bits • Tamanho da memória local do MicroBlaze • Análise de timing • Quantidade de recursos

UnB	Conclusão	GRACO

## Propostas

- Redes Neurais
- Controle Adaptativo\*
- Computação Genérica
- ...
- Qualquer sistema multiplexado
- Processos realizados em etapas
